# DEVELOP A STRATEGY THAT MATCHES YOUR NEEDS

ELECTRICITY \* NATURAL GAS \* SOLAR \* DISTRIBUTED GENERATION \* DEMAND RESPONSE

Secure Energy works extensively throughout the Northeast and Mid-Atlantic, and offers electricity and natural gas procurement solutions nation-wide in all deregulated markets. Secure Energy provides competitive supply agreements, utilizing aggregation strategies and individually tailored programs.

We understand and appreciate the difficult budget constraints facing many customers, and we are perfectly suited to meet the unique needs of each of our clients to help effectively navigate these volatile markets.

Beginning with an evaluation and presentation of the most appropriate procurement strategy, through ongoing consultation we have the experience, integrity and knowledge to help you manage all of your energy budget concerns.

Please allow us an opportunity to meet with you to:

- review your current energy plan
- discuss efficiency, distributed generation and demand response options
- refine your energy procurement goals
- assess your procurement options
- present pricing and most favorable agreement terms for your consideration
- put our cost control system to work creating value
